Re: State of Connecticut vs. Kevin [REDACTED]

Dear John:

I thought you would be interested in the outcome of Kevin's case. On October 18, 2007 the State nolledd the case. Intense negotiations have occurred over the past summer between myself and the prosecutor. The results of the polygraph examination you conducted were instrumental in allowing the nolle to be entered. Your report, transcript and control questions were submitted to the state's polygraph expert. His conclusion was that your results were accurate and that there was no need to submit Kevin to a polygraph exam administered by him. Thank you for your extremely professional work and your cooperation in responding to the several issues that were raised post-examination. I certainly intend to call upon you in the future, as the need arises. You should be congratulated on the quality of your work.

With kindest personal regards.

Very truly yours,

  
Robert B. Bellitto
